

**Stormwater Committee Meeting
February 21, 2024 at 2 pm
79 Bouton, Lunch Room
Meeting notes**

Attendees: Paul Lewis, Chair
Tony Gonçalves
Joel Smith
John Winter
Janet Andersen
Nadege Deseure-Plumridge
Ron Tetelman

After introductions, the committee agreed to work on items required within 6 months. The committee made the following recommendations:

Responsibilities and public contacts:

Stormwater Program Coordinator: Kevin Kelly
Public contact point for IDDE, Construction, and Post-construction: Kevin Kelly
Public contact point for the SWMP plan comment and questions – Janet Donohue

Janet will alert Janet Donohue that this is coming!

Janet and Ron will plan to talk to Kevin Kelly upon his return. Kevin will also have to create an Enforcement Response Plan (ERP). He also has a number of responsibilities for IDDE, construction, and post construction actions.

Mapping and highway

John Winter was interested in getting access to the GIS system in the field for catchbasin and outlet monitoring and updates. Paul Lewis will schedule a meeting with Joe Cermele, Joel, John, and other people as available to discuss options. John will ask Westchester County for latest map with catchbasins and outfalls.

Other miscellaneous items:

Some grants are now available for vacuum trucks. Ask state for expansion of grant categories to cover street sweepers.

Mapping grants – see if they will cover tablets for field use.

Need to find the forms used for catch basin inspection reporting.

Jan will send out links to permit and other info.

Town Codes likely to need updates.

Next meeting: Full committee agreed to meet on March 20, 2pm, at the same location.
