There is a large supply of the **File of Life** available through this senior group. They are a worthwhile emergency file that attaches to your refrigerator. The small Red Medical data file should be on your person at all times, and **must** be shown before boarding the bus **for any trip**. This **File of Life** is for your protection in the event of an emergency. Don't take its importance lightly. Call Virginia Crucy at 763-3329 if you have any questions.
