

# Join the Sustainability Committee

News Release Date  
09-10-2021

The Lewisboro Sustainability Committee needs your help to create a livable and equitable future. Join the committee - make a difference in our community!

Climate change is here and is happening to us now. Rising Hudson and Long Island Sound waters are now, superstorms are now, dangerous air quality from vast warming-fed fires is now, humanitarian and security issues driven by climate chaos are now and the need to take concrete steps to achieve a rapid and just transition to an economy and way of life that preserves a livable planet is now. People are actually making choices about where to live based on climate projections - we never saw that before.

We need more hands - the immediacy and the scale of this crisis demands that we all get involved, and joining the committee is a great way to do that. With the advice and efforts of the committee, the Town has made significant advancements in renewable energy, efficiency, waste, transportation - but there is much more to be done. Contact the committee at sustainability [at] lewisborogov.com.
