

Stormwater Committee Meeting March 20, 2024 – 79 Bouton

Attendees: Paul Lewis, Tony Gonçalves, Kevin Kelly, Joel Smith, John Winter, Joe Cermele, Jan Andersen, Nadege Deseure Plumridge, Ron Tetelman

The meeting was focused on a reminder of key near term dates and the 6 month permit requirements

- July 3 – 6 month requirements done and documented in SWMP Plan
- Oct 1 – interim progress report
- January 3 – 1 year / annual requirements

Potential Town board dates

- Post for public comment – end of May?
- Approve – end of June?

Joe:

- Confirmed KSCJ is considered alternate implementation option
- Said that Croton & EOHWC were not intermunicipal, should be considered alternate implementation.
- Mapping – 6 months requirements were completed by KSCJ in the fall as part of the audit.
- Said he could help with list of post construction SMPs

John was asked to do the following:

- Develop and implement procedures for sweeping and/or cleaning municipal streets, bridges, parking lots, and right of ways
- Document training prior to inspections, documentation
- Said that the catch basin inspections in EOH watershed were done by his department.
- Agreement that Highway should be the primary contact for IDDE contact info

Kevin

- Agreed to be Stormwater Program Coordinator, with Tony's agreement
- Agreed to be construction contact.
- Agreed would look at the draft Enforcement Response Plan and modify as required.
- Indicated that he participated in annual stormwater training.

Tony will look into Local law compliance

We discussed the need for Public info on IDDE. Joe said making it available on the Town website would be adequate, so the prepared info will be added to the Stormwater page on the website.

The meeting adjourned at 3:45pm. The group agreed to meet April 17, 2024.
