

Accessible Parking Permits

Accessible parking permits are available through the Town Clerk's Office for residents only. To obtain a permit residents must complete the Accessible Parking Application and submit it along with a note from your doctor, stating the nature of the accessibility and the need for either a temporary or permanent permit. A permanent permit is valid for five years while a temporary permit is valid for six months. Both of these permits can be renewed with an updated doctor's note.

Please note: one must fill in driver's license number and the type and license plate numbers of all cars to be used with the accessible parking permit.

The Accessible Parking Permit Application for the Town of Lewisboro and the Accompanying Doctor's Note and DMV Instructions are available either on line, at the Town Clerk's Office or by email request.
